Sanvi is at work,
It seems like a normal day,
Sanvi is still deaf.

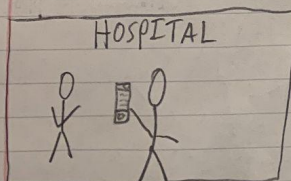

One of Sanvi's coworkers
asks if she wants to
go to a concert with them.

Sanvi comes to the realization
that she has never been to a
concert before since she is
deaf.

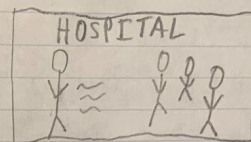

Her friend shows her the
app "Concert Companion".

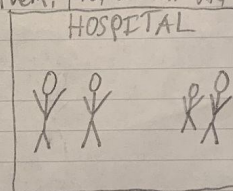

This app has all sorts of
details about upcoming concerts.
Including whether or not an
interpreter will be there!

Sanvi has no idea how to get
tickets. She also wants to go to a
concert that has a interpreter for the
music.

the concert and have the best
time of their lives!
